MANAGING THE COVID-19 PANDEMIC IN THE PHILIPPINES: A POLICY SOURCEBOOK

Volume II: Local Government Units (Luzon)

as of 31 July 2020

This compilation of COVID-19 policies issued by local governments is a collaborative effort of the University of the Philippines - Resilience Institute’s (UPRI) Research and Creative Work team. It is an evolving work that will be updated monthly, as part of UPRI’s contribution to the efforts of the UP COVID-19 Pandemic Response Team and in pursuit of UP’s mandate as a public service university.

PREFACE

It is already a big challenge to stay abreast of the rapidly evolving COVID-19 policies issued by the Office of the President, the Inter-Agency Task Force on Emerging Infectious Diseases (IATF-EID) and various national government agencies (NGAs). What more for the numerous provinces, cities and municipalities across the local landscape where ultimately, the battle against the pandemic will be won or lost.

Documentation of policy issuances by local governments is obviously necessary. It can point us to responses that work in one area and may be emulated by other local government units (LGUs). It can also aid us in understanding the intergovernmental relations between and among NGAs and LGUs. Add to this the potential for friction on interlocal relations for LGUs who share borders as they grapple with cross-border restrictions on travel of persons and goods. Recognizing this great need for archiving and analysis, the UP Resilience Institute through its Research and Creative Work unit, now adds Volume II to its Policy Sourcebook.

Given the large number of provinces, cities and municipalities affected by COVID-19, this volume focuses first on selected LGUs of Luzon. Nine provinces, 17 cities (including all of Metro Manila) and the Municipality of Pateros, are covered here. Policy issuances include ordinances, executive and memorandum orders, advisories (including those issued by local disaster risk reduction and management councils), resolutions, public memoranda, guidelines, and even official statements and declarations, especially those issued by local chief executives.

The LGUs were selected based on the World Health Organization (WHO) Situation Report of provinces with greater than 100 cases as of 7 July 2020. We also paid particular attention to Batanes, which remains the only COVID-free province in the country as of this writing, and Baguio City, which has been one of our exemplar LGUs outside the National Capital Region.

The annotated policies presented here are arranged alphabetically first by province, followed by cities and the lone municipality. The policy issuances per province or LGU are arranged according to chronology of issuance, by date or by number. Each LGU is preceded by a summary list of issuances. The total number of issuances annotated here amounts to 310 policies.
Each policy is carefully annotated with a brief description, followed by its category, sector, and justification. Detailed enumerations of categories and sectors used are provided in the Appendix. Clickable links for the policy issuances are also provided, for convenient reference.

This sourcebook is by no means exhaustive, nor final. We will further strive to improve this document in both substance and form. We will continue to add more contents in our upcoming monthly updates, covering other LGUs, especially in the island groups of the Visayas and Mindanao, as we share the hopes of the rest of the Filipino people – to win the fight against a vicious and invisible enemy that is COVID-19.

Executive Order No. 07 s. 2020

The executive order is entitled "An Order Establishing Measures to Prevent the Spread of COVID-19 in the Province of Albay". The order includes guidelines on self-quarantine, school activities, suspension of cockfighting activities, daily disinfection protocols for business establishments and public places, public utility vehicles within and from outside the region, and crowd activities. Following the IATF-EID's designation of Baguio City as a moderate risk area and pursuant to the same Task Force's Resolution No. 35, the city is placed under General Community Quarantine (GCQ). Strict prohibitions on mass gatherings and on non-essential movement are still in place, but several industries that were otherwise restricted under the ECQ are now permitted to operate, subject to regulations set by IATF-EID Resolution No. 30.

Essential sectors such as agriculture, fisheries, forestry, food, medicine, as well as its allied manufacturing, retail, logistics, and supply chain industries are allowed to operate in full capacity. Other essential services such as banks and financial institutions, information and communications technology, gasoline and petroleum stations, laundry services, and funeral services are also allowed to have full capacity.

Restaurants, cafes, and other food service establishments are only allowed to have preparation, take-out, and delivery services.

Public and private physician clinics, dental clinics, optometry clinics, and medical laboratories may operate from Monday to Saturday subject to the DOH's Health Standards Advisories.

Essential public and private construction projects are allowed to continue subject to the DPWH and the City Administrator's Office guidelines. Its allied industries such as hardware, electric supply, machine shops, auto repair, and aggregates are allowed to operate from Monday to Saturday.

Mining and other manufacturing, electronic commerce, housing and property management, legal and accounting, auditing, scientific, technical, and professional services may operate at 50% capacity. BPO's and export oriented industries may also continue to operate at 50% capacity provided that they avail of work-from-home schedules or on-site/near-site accommodations.

Office supply, electronic supply and repair, information and communications technology gadget shops, bicycle supply and repair, and printing and publishing services may operate
6 days a week. Meanwhile, electric appliances supply and repair shops and furniture shops may operate 3 days a week.

Hotels, lodging, and hospitality establishments are not yet allowed to operate except in instances where they cater to stranded individuals, quarantined individuals, or accommodations agreements with other permitted industries and accommodations agreements for health care workers.

To accommodate workers in these reopened industries, public transport in the form of public utility jeepneys and taxi units are now allowed to operate at 50% capacity.

All of these permitted industries and sectors are still subject to strict hygiene and social distancing measures and are required to provide the necessary protective fixtures and disinfectant materials for their customers, clients, or passengers.

Executive Order May 31, 2020

Following the IATF-EID Resolution No. 41, Baguio City is placed under Modified General Community Quarantine (MGCQ). Minimum health standards such as hygiene, sanitation, and social distancing measures will still be strictly implemented. A curfew from 9:00PM to 4:00AM and a temporary ban on the sale and distribution of liquor are still imposed. Regulations on entry to the city are still maintained.

Indoor and outdoor non-contact sports and other forms of physical fitness and exercise are allowed. Higher educational institutions are also allowed to conduct face-to-face classes. Work in public and private offices can also be resumed at full capacity; but employees who are pregnant, senior citizens, or those who have immunodeficiency, comorbidity, or other health risks are to be assigned alternative work arrangements. All these are permitted provided that they observe minimum health standards.

All permitted industries under the GCQ are now allowed to operate at full capacity. Additional sectors are now also allowed subject to various restrictions. Food establishments are now allowed to offer dine-in services at 50% capacity. Barber shops and salons may also provide services limited to basic haircutting at half capacity as well. Fitness centers, gyms, and other recreational facilities may also operate at half of venue capacity. Internet shops are also allowed to provide their services, except for gaming, at 50% capacity. Hotels, lodging, or hospitality establishments may also operate at half capacity provided that their operations are limited to basic lodging.

General merchandise stores, RTW retail stores, and other dry goods retail establishments are also allowed to operate subject to implementation of minimum health standards and social distancing. Public transport is still limited to half capacity.

Executive Order April 14, 2020 Taguig City

This orders the issuance of a Unified Quarantine Pass (UQP) to one member per household in Taguig, free of charge. The purpose of the UQP is to limit the movement of people in the streets and in essential public places so as to prevent the further spread of COVID-19 and ease the burden of the frontliners. The UQP will be issued to a family member who is 18 years old and above, except to senior citizens. Those issued with a UQP can buy basic necessities for their household from 5:00 AM to 8:00 PM. If the household is composed of only senior citizens or people with medical conditions, they are advised to contact barangay officials.

The distribution of the UQP shall be done by the officials of the barangays to every household; this is to avoid crowding as well. In exchange, households must surrender their previously issued quarantine passes. Those who are exempted from the UQP are frontliners, those involved in delivery of basic and health services, security and essential services, peace and order and public safety personnel, and personnel and private individuals involved in disaster and medical emergency cases.
